

## RootRevive Max

Uses:

RootRevive Max is a powerful mycorrhizal biofertilizer designed to enhance plant growth and health. This innovative product offers several benefits for gardeners, farmers, and agriculture enthusiasts:

1. **Root Health :** RootRevive Max establishes symbiotic relationships between plants and mycorrhizal fungi, leading to healthier and more extensive root systems. This, in turn, improves nutrient and water absorption.
2. **Nutrient Uptake:** The mycorrhizal fungi in GreenRoots Elite help plants access and absorb essential nutrients, including phosphorus and micronutrients, from the soil, promoting balanced nutrition.
3. **Stress Resistance:** RootRevive Max increases a plant's resistance to environmental stressors, such as drought, salinity, and soil-borne diseases, damping-off, root rot and vascular wilt, white bugs, Termite, fungus resulting in more resilient crops.
4. **Improved Yields:** Regular use of RootRevive Max can lead to increased crop yields, better fruiting, and overall healthier plants.
5. **Sustainable Agriculture:** RootRevive Max reduces the need for synthetic fertilizers and chemicals, contributing to sustainable and environmentally friendly agricultural practice.

RootRevive Max Mycorrhizae is widely used in all plants and is a Completely Eco-friendly Harmless bio fertilizer and 100% Organic Solution. It is a cost effective bio fertiliser Best for Domestic Purposes like home garden Kitchen Terrace Garden , Nursery & Agriculture Practices like Horticulture , Vegetables .

- ◆ Increases yield by 15-20%
- ◆ Improve plant root growth and development.
- ◆ Increase the uptake and mobilization of phosphate in all crops.
- ◆ Effective in overcoming stress conditions like drought, disease incidence, and deficiency of nutrients.
- ◆ VAM supplements root hair in water absorption hence preventing reduction in crop relative water content of cells and helps to overcome drought.

Dosage : Seed Treatment – 8 ml per Kg seed. Soil application : 1-1.5 Liter Mycorrhiza per Acre For Drip irrigation : 1.5 – 2 Litre.
