Crop Tonic 21

Contents:

- 16 types of essential amino acids
- Proteins
- Vitamins

Crop tonic helps in plant stem elongation, plant growth, reducing flower and fruit dropping and enhancing the quality of fruits and vegetables.

Functions:

- Reduces Biotic and Abiotic Stress (Scavenges the Reactive Oxygen Species that are generated during stress conditions)
- Develops immunity in the plant to resist virus, pathogen or fungal attack.
- Aids chlorophyll synthesis and hence photosynthesis thereby improves Yield and Quality of produce.
- Post-harvest benefits; longer shelf life of produce.

Application & Dosage:

Foliar spray: 5 ml 50 litre of water.

Target crops: Can use for all crops.

Available packing: 5ml, 10ml, 25ml, 50ml & 100ml

Bulk Packing: 20 liter, 50 Liter & 200 Liter
