

# SUPERHALITE

## The 4-in-1 multi-nutrient fertilizer from Ecotika

### Key Features

1. 4 in 1: Potassium, Calcium, Magnesium and Sulphate.
2. Finely powdered to help proper assimilation of nutrients in soil.
3. Helps to maintain a slight acidic pH of soil, to help proper plant growth.
4. Suitable for use with all fertilizer types.
5. Suitable for use with all kinds of crops and all soil types.
6. No Chloride content, hence very suitable for use with Chlorine sensitive crops.

| Nutrient  | % Availability |
|-----------|----------------|
| Potassium | 7.5%           |
| Calcium   | 14%            |
| Magnesium | 5.5%           |
| Sulphur   | 20.4%          |

| Crop        | Indicated Qty            |
|-------------|--------------------------|
| Peanut      | 150-200 Kg per acre      |
| Potato      | 150-200 Kg per acre      |
| Onion       | 150-200 Kg per acre      |
| Mango       | 1.5 kg to 2 Kg / tree    |
| Lemons      | 0.5 to 1 Kg / tree       |
| Pomegranate | 0.5 to 1 Kg / tree       |
| Banana      | 0.350 to 0.5 Kg per tree |

The above recommendation is for reference only. Recommended fertilizer rates should be adjusted based on climate and soil properties at your specific location.
