

PRODUCT

ORGANIC BIOSTIMULANT

Composition	Ingredient	Powder	Liquid
	Eugenol	01.00% w/w min.	01.00% w/v min.
	Potassium Salt of fatty acids	06.00% w/w min.	99.00% w/v max.
	Sodium salts	93.00% w/w max.	-

Crops

Tomato, Potato, Paddy, Cucurbits, Chilli, Okra, Papaya etc.

Mode of Action

As a biostimulant, provides adequate nutrition support with better protein and starch synthesis. Also improves photosynthesis and develops draught resistance. Presence of clove oil (eugenol) helps in developing resistance against certain bacterial diseases and viral diseases like bacterial blight, leaf spot, canker, cucumber mosaic virus, leaf curl virus, yellow mosaic virus, papaya mosaic virus etc.

How to Apply

Mix the recommended quantity thoroughly in sufficient amount of water & spray on both sides of the leaves / affected areas. Presence of Clove Oil (Eugenol) also helps in developing resistance against certain bacterial and viral diseases like bacterial blight and leaf spot, canker, cucumber mosaic virus, leaf curl virus, yellow vein mosaic, papaya mosaic etc.

Shelf Life

3 years from the date of manufacture.

Antidote

No specific antidote. Treat symptomatically.

Dosage

4-5 g / 4-5 ml per litre of water

Organic Approval as per NPOP (by APEDA)

1. IMO Control
2. VOCA
